# ABOUT

\* a few things about Kreppo crew

We are a full service studio passionate about design, coding, digital marketing, photography and videography. We strive for challenges to help brands to effectively communicate with their audience.

We firmly believe that there is no job too small or too big for us, so do not judge us when we say that we don't mind if you choose us to be your one-night stand or you choose to work with us continuously. If we like you, we will be more than happy to work with you again, and if we don't like you - we will probably work with you again too, but for a higher price.

Kreppo crew is made up of incredibly talented and experienced experts dedicated to their craft. We come from different backgrounds, have different personalities, and that is the main reason our magic works so well.

If you want to get to know us a little better, or you need some of our services, feel free to hit us up.
